PROFILE

Senior Management Information Systems student with hands-on experience in e-commerce operations, marketplace management, and project-based digital product development. Managed 572+ Trendyol orders end-to-end for a menswear brand. Builds Unity 2D and 3D game prototypes using AI-assisted development tools, with playable demo releases in preparation for itch.io. Seeking an internship in business operations, digital transformation, product development, MIS, or technology-driven functions.

EXPERIENCE

E-Commerce Operations Coordinator Feb 2026 – Present

BAROS Menswear · Istanbul, Turkey

- Relaunched a dormant Trendyol marketplace store from scratch and rebuilt its operations end-to-end.
- Managed 572+ orders across inventory coordination, shipping flow, customer communication, and order tracking.
- Worked on product listing, pricing, campaign setup, and product content operations.
- Supported product photography, visual editing, and marketplace content production.

Sales Representative (Wholesale) Oct 2019 – Nov 2019

Melve Tekstil San. ve Tic. Ltd. Sti. · Istanbul, Turkey

- Gained field experience in B2B sales and warehouse operations at a ready-to-wear wholesale company in the Merter district.

EDUCATION

B.Sc. Management Information Systems (English) Sep 2023 – Jan 2027 (Expected)

Yeditepe University

Senior Student · GPA: 3.00 / 4.00 · Relevant Courses: 3D Game Design, Advanced Web, Virtualization & Cloud, ERP Systems, System Analysis

B.Sc. Interior Architecture & Environmental Design (English) Sep 2020 – Jun 2023

Ozyegin University

1 year English prep + 2 years undergraduate; transferred to Yeditepe University. Foundation in design thinking and visual communication.

PROJECTS

CYBER DASH — Unity 2D · URP · Mobile Game Demo

- Developed a cyberpunk-themed top-down survival prototype prepared for portfolio showcase, with a playable itch.io demo release planned.
- Designed dash mechanics, enemy/boss progression, power-ups, combo flow, and game feel effects using AI-assisted tools.

DEADGEAR — Unity 2D · Zombie Survival / Defense Demo

- Developed a wave-based zombie survival prototype with spawn logic, wave management, day/night cycle, and demo stabilization.

VANTORYN — Unity 3D · Superhero Simulator Prototype

- Developing an early-stage 3D superhero simulator focused on flying, city traversal, combat, and interactive city systems.
- Status: work in progress, not yet demo-ready.

Browser-Based Game — HTML5 Canvas · JavaScript · CSS

- Built an interactive browser game using vanilla web technologies.

SKILLS

Business & Operations: Trendyol marketplace management, product listing, pricing, order & inventory tracking

Digital & Technical: Unity 2D/3D, HTML/CSS, Git/GitHub, AI-assisted development (Claude, Codex, Cursor, ChatGPT)
